

How To: Download UnitedStreaming Videos

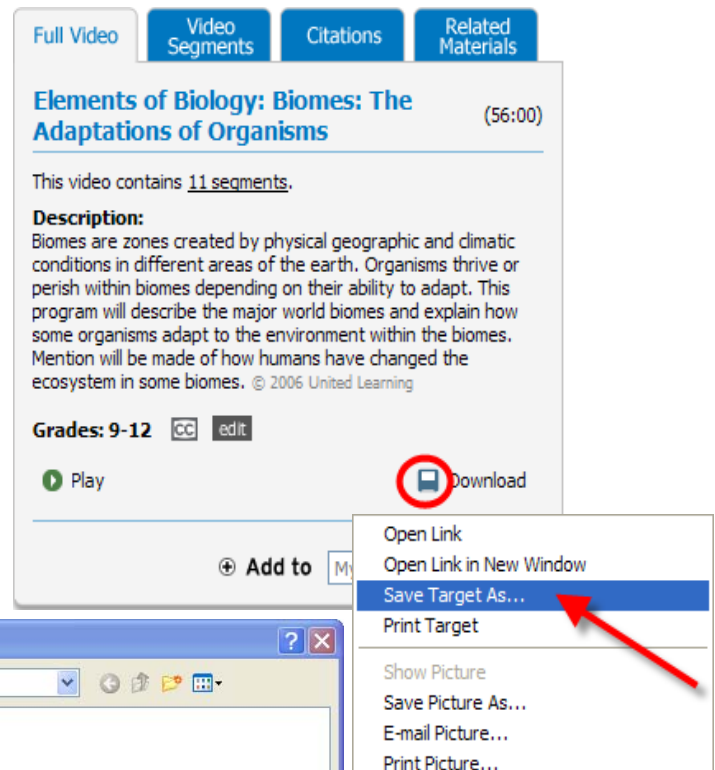

Go to the UnitedStreaming website:
www.unitedstreaming.com

Sign in using your username and password, if you do not have a username contact Robin Gage (rgage@nwarctic.org) for a pass code to create an account.

The image shows two forms on the UnitedStreaming website. The top form is titled 'LOG IN' and contains fields for 'USERNAME' and 'PASSWORD', a 'GO' button, and a link for 'Forgot your username or password?'. A red arrow points to the 'GO' button. The bottom form is titled 'NEW USERS' and contains fields for a passcode, a 'GO' button, and the text 'What is a passcode?'.

Search for the video you wish to view, click on the title of the video to open the 'Asset Details' page, from here you can download the video.

The image shows the 'Asset Details' page for a video titled 'Elements of Biology: Biomes: The Adaptations of Organisms' (56:00). The page has tabs for 'Full Video', 'Video Segments', 'Citations', and 'Related Materials'. The video description states: 'This video contains 11 segments. Description: Biomes are zones created by physical geographic and climatic conditions in different areas of the earth. Organisms thrive or perish within biomes depending on their ability to adapt. This program will describe the major world biomes and explain how some organisms adapt to the environment within the biomes. Mention will be made of how humans have changed the ecosystem in some biomes. © 2006 United Learning'. The 'Grades' are listed as '9-12'. There are 'Play' and 'Download' buttons. A red circle highlights the 'Download' button, and a red arrow points to the 'Save Target As...' option in the context menu that appears over it.

Using the RIGHT mouse button, click on the icon next the word Download. This will open a menu, select 'Save Target As...'

This will open the Save As window, from here you can specify WHERE you want to save the video as well as what you want to name it. Select the location to save it and click Save.
